

## RELEASE FOR USE OF NON-SECURE MODES OF COMMUNICATION

This release pertains to communication using non-secure modes, regarding the below named client of Jasper Mountain:

**Child:** \_\_\_\_\_ **Date of Birth:** \_\_\_\_\_

It is currently recognized that internet-based communication such as Skype and telephone communications are non-secure modes of communication, in that there is the remote possibility for conversations that take place over such mediums to be overheard by an outside party. Given that this is possible, family members who are going to have conversations with their child's therapist or other agency staff regarding the treatment of their child in one of our programs need to be aware of this fact.

We ask that family members acknowledge their awareness of this issue and grant permission, if they so choose, to use Skype (web-cam) communication, or telephone line communications with this agency to discuss issues related to the child's treatment in any of our Jasper Mountain programs.

### **Acknowledgement**

By signing below, I acknowledge awareness of the above-stated issue, and agree to the use of telephone or internet-based communications for the purpose of my child's treatment in any of the programs within the Jasper Mountain agency.

**Name of Parent/Guardian (Please Print):** \_\_\_\_\_

**Relationship to Child:** \_\_\_\_\_

**Signed:** \_\_\_\_\_ **Date:** \_\_\_\_\_
